

CIMEA's integration of the DEQAR API in DiploMe

When the credential evaluator fills in the certification comparability on DiploMe, the awarding institution from the country selected can be validated via DEQAR by clicking on the drop-down menu (framed in red in the image below).

In the drop-down menu, the credential evaluator will find all the country institutions, whose quality assurance reports (for single programmes or for the whole institution) are present in the DEQAR database. If the awarding institution is among them, the credential evaluator selects it and clicks on “Confirm Institute”.

Once the credential evaluator has selected the awarding institution, automatically the DeqarID of the institution will appear (the credential evaluator can eventually clear the DeqarID).

EVALUATION DETAILS:

[REDACTED]

The present Statement is drafted by CIMEA, the national information centre dealing with the NARIC - National Academic Recognition Information Centres network of the European Union and with the ENIC - European National Information Centres network of the Council of Europe and UNESCO - European Region. The present Statement has the value of non-legally binding advice and it does not certify nor examine the authenticity of the evaluated qualification.

European Quality Assurance
Register for Higher Education

When producing its certifications, CIMEA makes use of blockchain technology, linked to the diploma service.

"Comparability" means the indication of the qualification's level in reference to the cycles of the Bologna Process and to the levels of the European Qualifications Framework. Such comparison does not imply the formal recognition of the mentioned qualification within any national system, except the education system of the country of issue, but it is a useful recommendation to institutions that have to evaluate a qualification within recognition procedures; the Statement of comparability has the force of a advice, and does not bind the institutions during their own procedures of assessment and recognition.
